# SCR Report of August 2018

To the Shard Community,

As you all know 70% of the pre-sale funds raised went into the Shard Community Reserve (SCR). These funds are used for investing in other cryptocurrencies and providing liquidity to the Shard markets.

SCR report of August 2018:

- Estimated value of extra-Shard holdings: 6.7 BTC (\$48,226)
- Shard held in the SCR: 1,233,914 SHARD
- Shard burned by the SCR: 140,000

At the following address you will find the shard held by the SCR

<http://shardexplorer.com/address/Sk96aKe34Z1tvtf6i9tL2bVqk811F5m5cy>

This is the transaction of the 140,000 Shard burned this month

<http://shardexplorer.com/tx/dc97de37456f737966e12172dc04b155d17597437b0fc1a2b6fddd176382ac82>

2 BTC was taken from the SCR this month as voted by the community, towards listing Shard on Cryptopia.

The state of the market this month is much the same as last, and we have decided that a monthly report is too frequent to provide meaningful updates. Therefore the SCR report will now be provided on a quarterly basis.

Best Regards,  
The Shard Team
